

COVID-19 (Coronavirus-June 2020)

COMPANY STATEMENT

As a result of your questions and the ongoing developments with regards to the Global & UK Coronavirus (COVID-19) pandemic, Mercian Labels Ltd continues to assess and evaluate the potential risks, taking every precaution necessary in the fight to contain the virus and to ensure that our supply chain remains unaffected.

We continue, of course, to follow our BRC Hygiene Health & Safety guidelines and procedures rigorously, having placed hand sanitisation stations throughout the business at the beginning of the pandemic . Specific guidelines have been issued in relation to 'self-hygiene' practices and we have also expanded our cleaning regime to include the cleaning of all surfaces, work stations, door handles and public areas on a regular basis.

In accordance with local UK Government Guidelines, the NHS Trust and Public Health England's advice, all Customer meetings are now being conducted via Microsoft Teams and we remain in contact with our Home Working Business Development Managers in the same way.

Our supply chain is exclusive to the United Kingdom and our suppliers are constantly being monitored. We remain in close contact with them and should the need arise, we are ready to take any necessary actions to protect all of those concerned.

We foresee no issues pertaining to product safety or our supply chain currently. However, should we encounter any 'self-isolation' or virus incidents, rest assured that we have a very robust Disaster Recovery Plan ready to be activated whenever needed.

Should you have any concerns at all, please do not hesitate to contact your Account Manager or our Customer Care Team directly.
